

## **SAMUEL HANNANT – PROFILE**

### **Background**

Sam started working in the plumbing and fire industry in 2006 and has specialised almost exclusively in fire services for over 10 years. He is a licensed Plumber, Drainer and Gasfitter and is a Certifier in fire hydrants, fire hose reels, fire pumps and fire tanks.

Sam's professional focus lies in certifications and site audits for plumbing and fire services. This includes installations and upgrades as well as maintenance, repairs and testing of fire systems.

### **Industry involvement**

With a passion for the fire industry and for community safety, Sam is involved at industry level in the following capacities:

1. Councillor – Master Plumbers' Association of Queensland (“**MPAQ**”) since 2013;
2. Member of the MPAQ Fire Committee;
3. Member of the QBCC Fire Committee; and
4. Representative for Master Plumbers' Australia on the Australian and New Zealand Standards Committees for the following Australian standards:
  - a. AS 2419.1-2005 – Fire hydrant installations system design, installation and commissioning;
  - b. AS 1851-2012 – Routine service of fire protection systems and equipment;
  - c. AS 2304-2011 – Water storage tanks for fire protection systems; and
  - d. AS 2941-2013 – Fixed fire protection installations – Pump set systems.

Sam has also been an expert witness in several legal and insurance matters concerning the fire industry in recent years.
